

# Future Public Mobility in Sweden

John Hultén, Director, PhD

K2 – the Swedish knowledge center for public transport

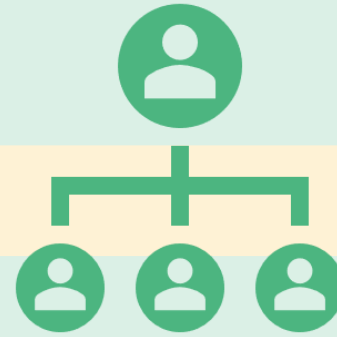

Rail era

Bus era

PTA era

Mid 19th  
century

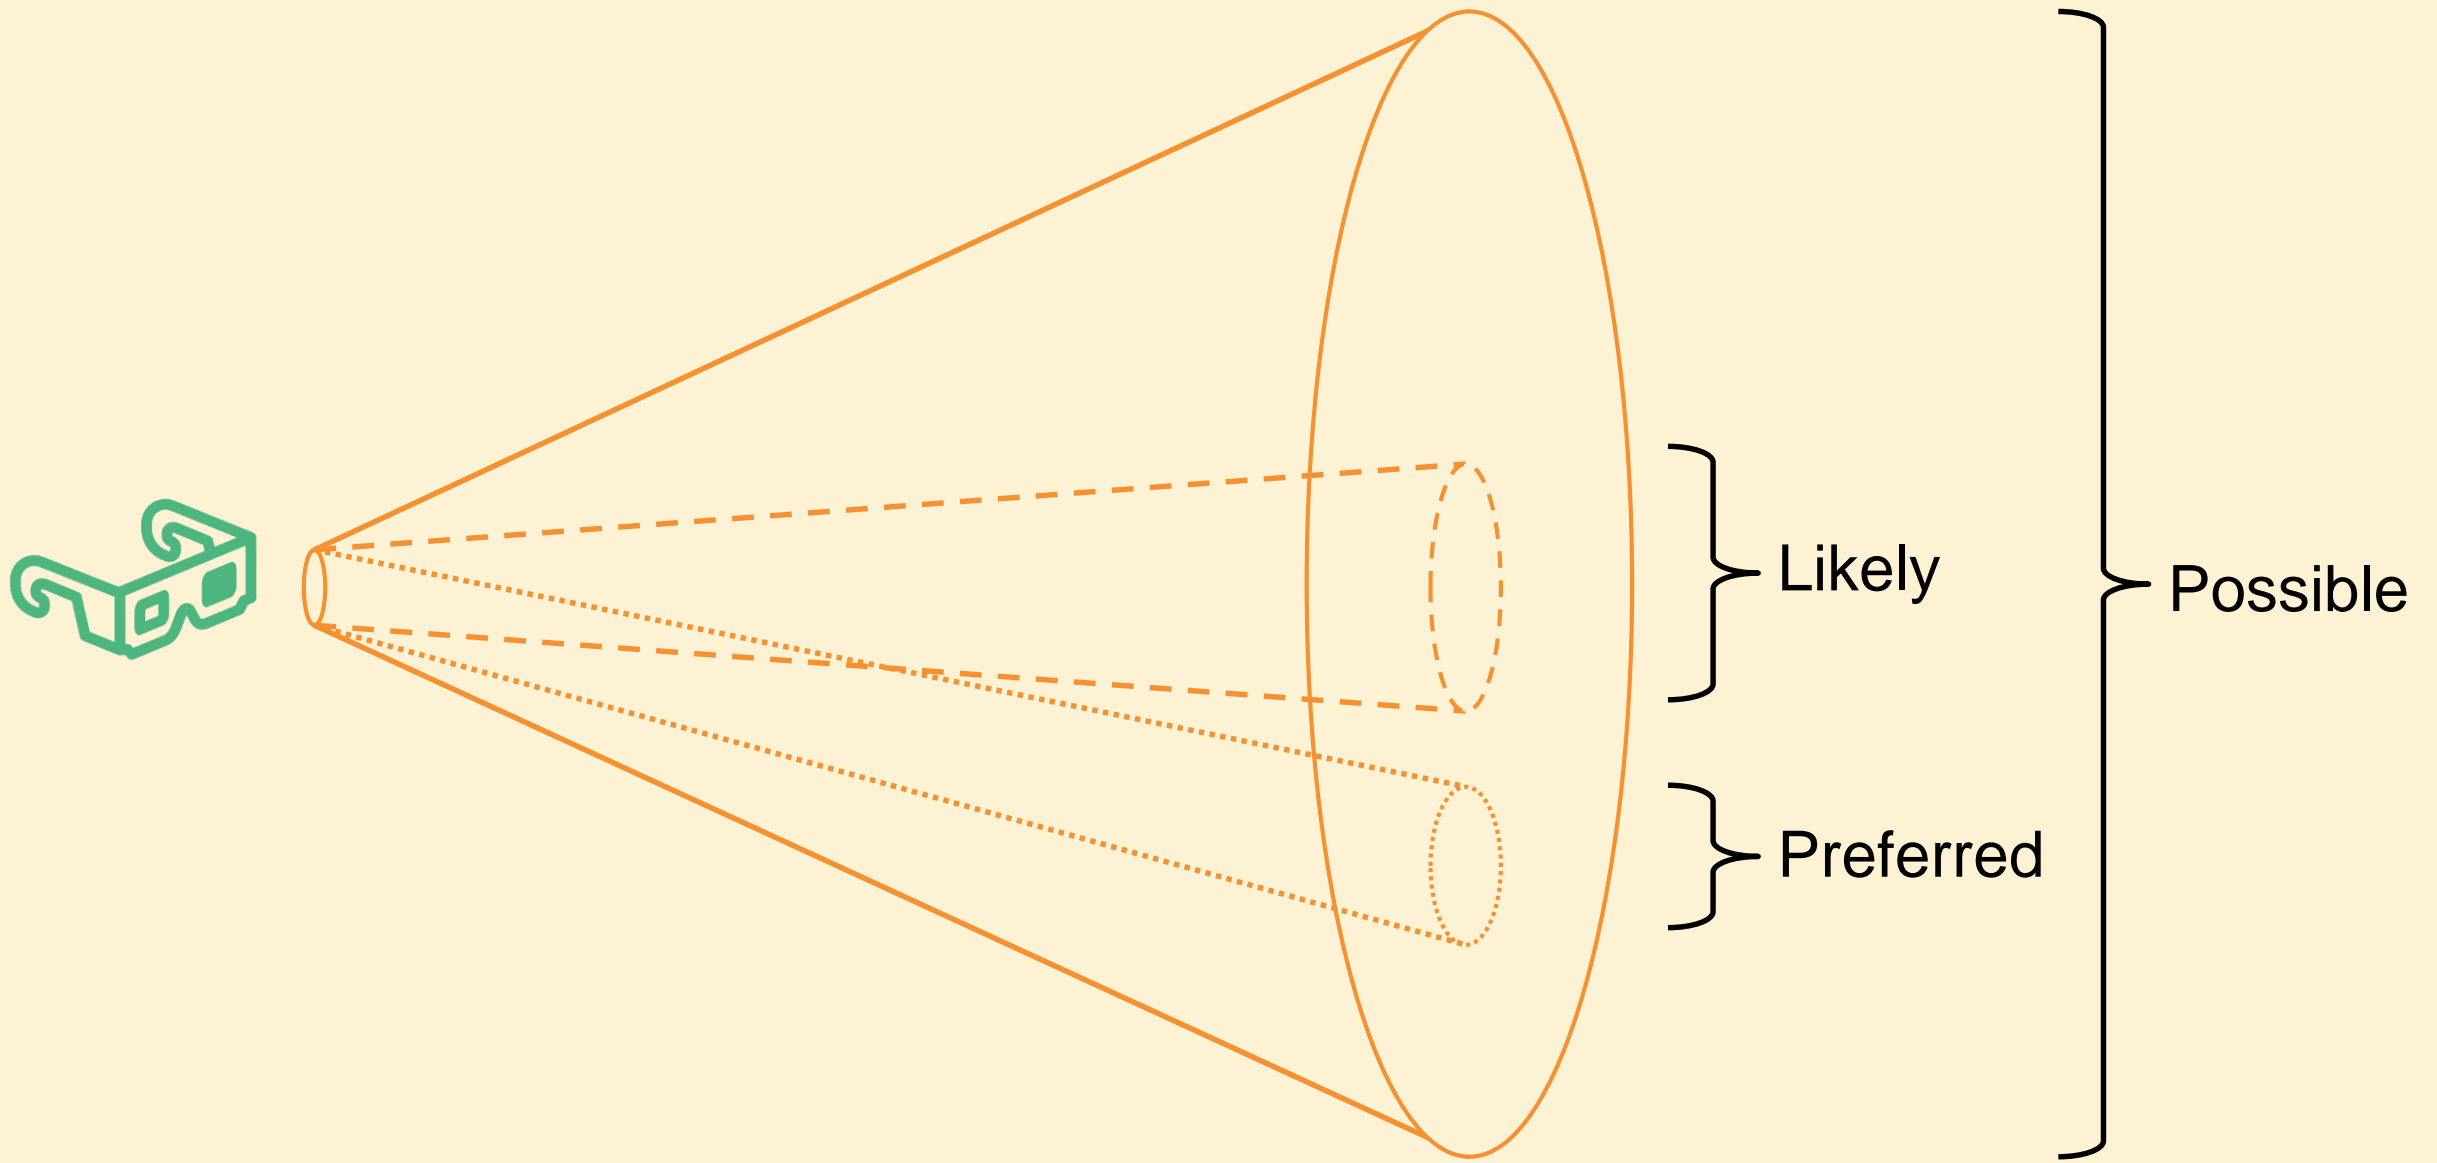

2023

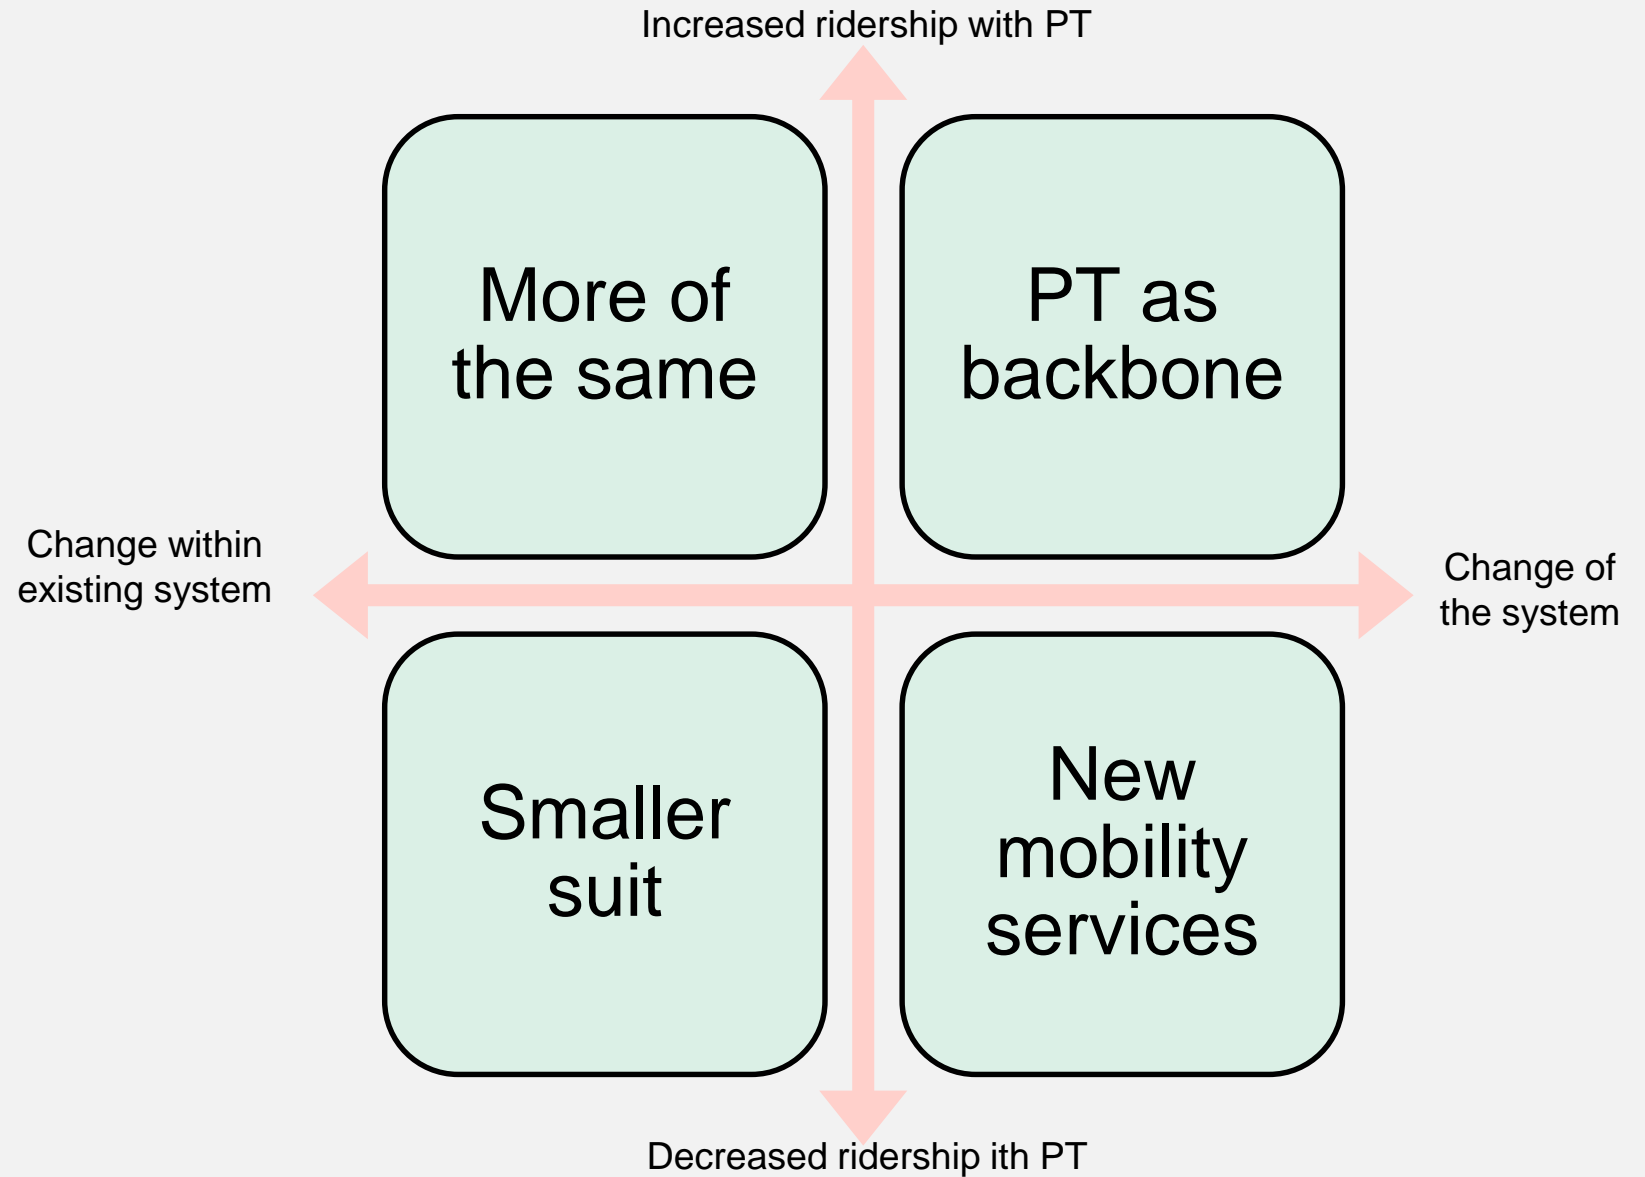

# Warning!

- The curse of the present
- Trend projections and self-fulfilling prophecies
- Black swans

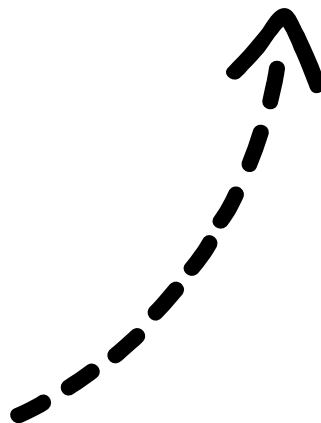

# Four scenarios for the future

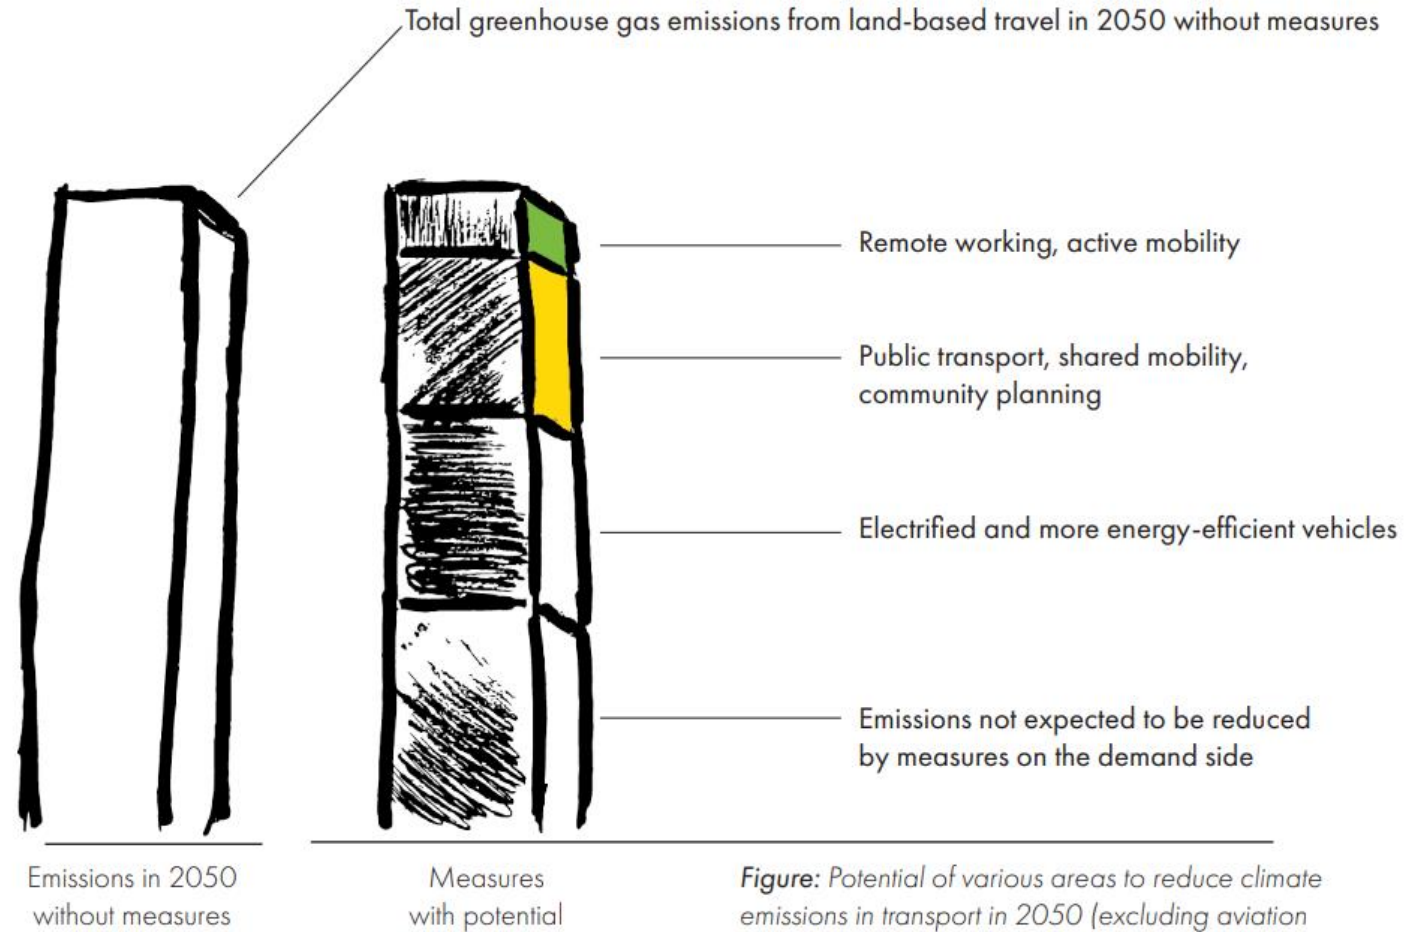

# FUTURE PUBLIC MOBILITY

THE NEXT STEP FOR SUSTAINABLE TRAVEL

# NEED FOR NEW THINKING

"Electrification necessary,  
but not enough"

*Figure: Potential of various areas to reduce climate emissions in transport in 2050 (excluding aviation and maritime transport) (based on IPCC 2022)*

## A NEW REFORM FOR FREEDOM

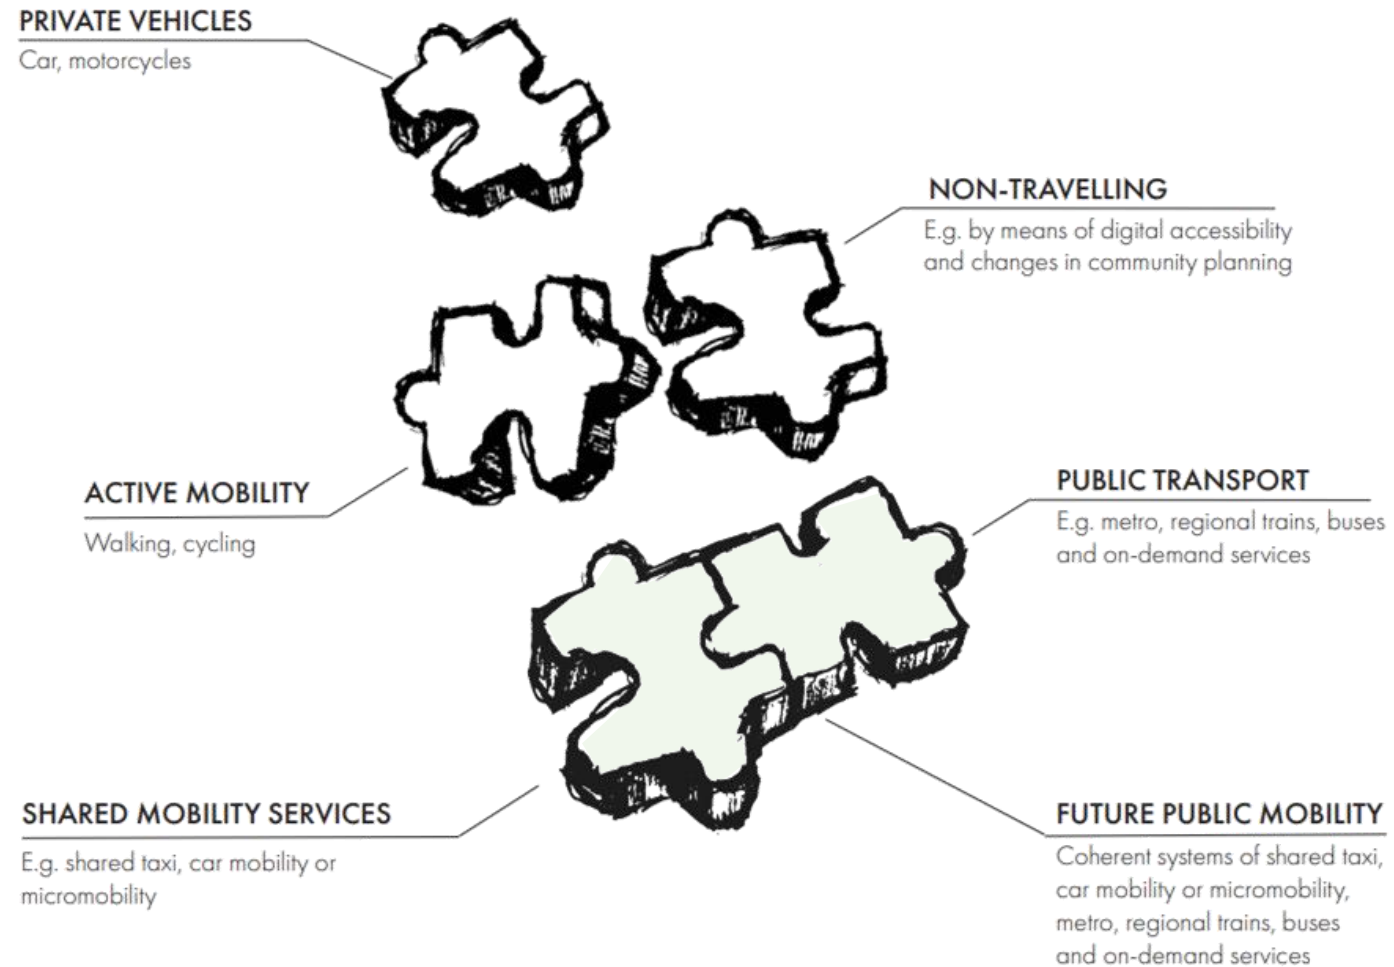

...ENABLING EVERYONE TO GET ALL AROUND CITIES,  
AS WELL AS TO IMPORTANT PLACES OUTSIDE CITIES

within a reasonable time and at a reasonable cost

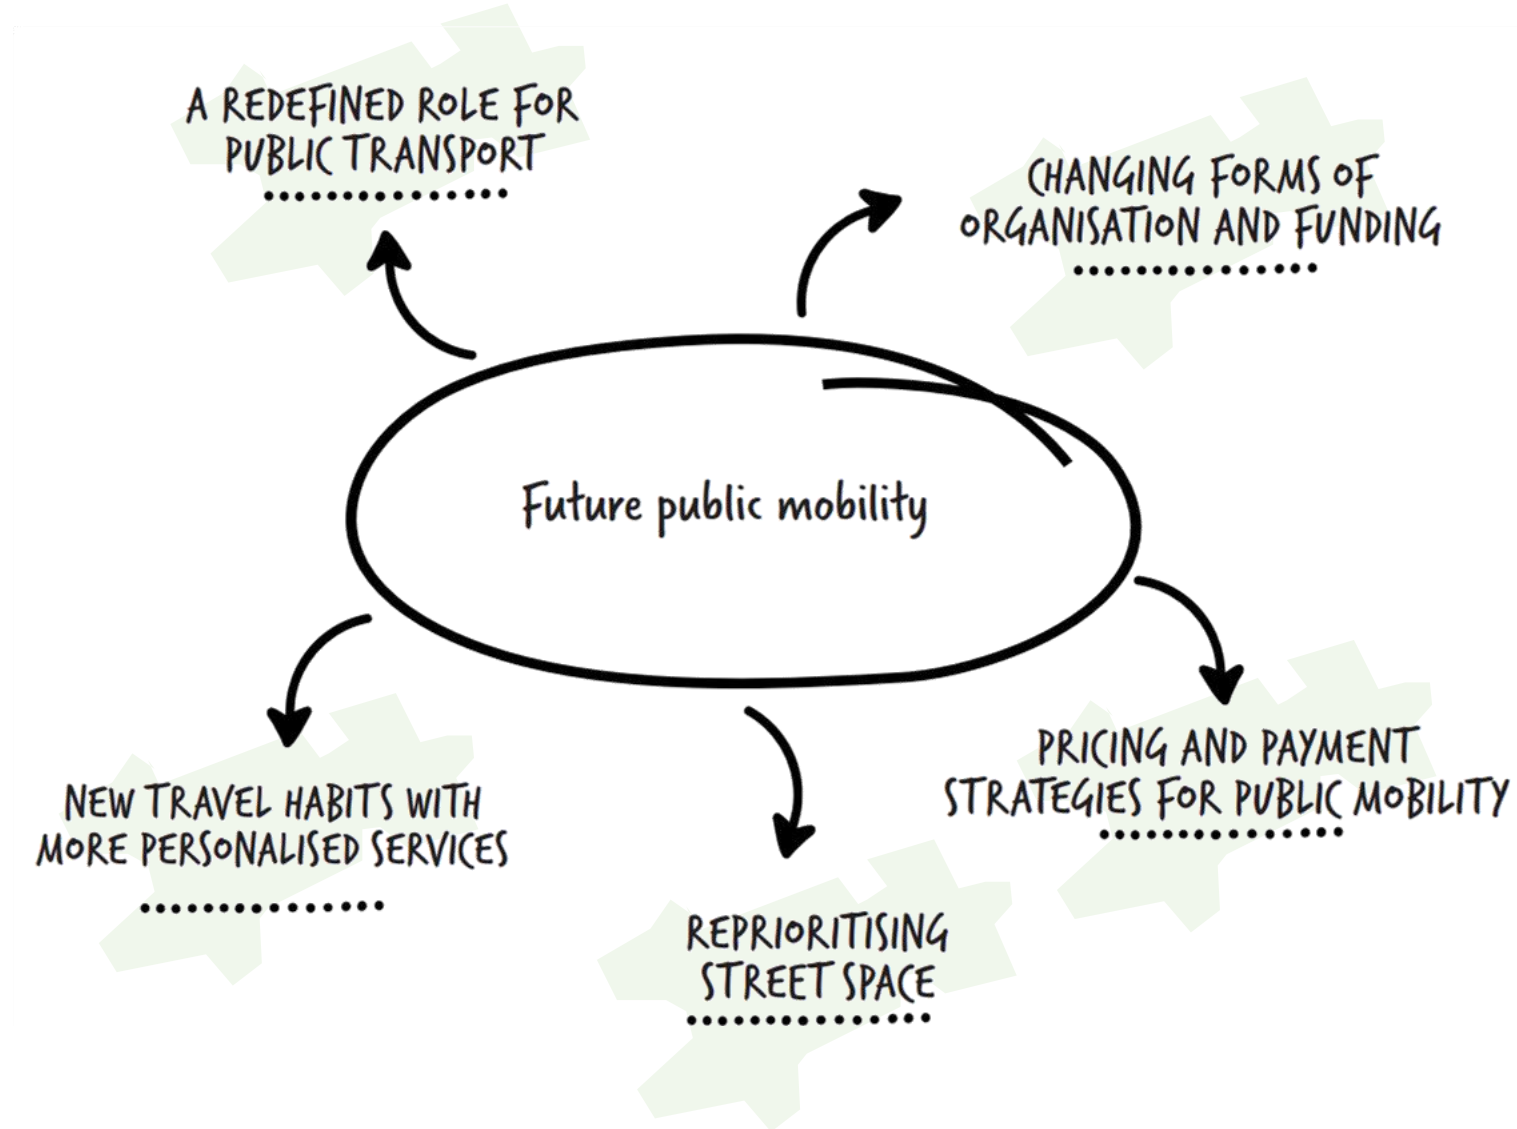

- without having to own a vehicle"

# LINK THE NEW WITH THE ESTABLISHED

# AN AGENDA FOR FUTURE PUBLIC MOBILITY

**FUTURE PUBLIC MOBILITY**  
THE NEXT STEP FOR SUSTAINABLE TRAVEL
